

COVID-19 Policies & Procedures

CampJCC follows guidelines by the CDC and FSSA for essential childcare programs, as well as standards and best practices set out for sports programs i.e. tennis and equestrian camps (focus on skill development and non-contact competition). CampJCC staff are closely monitoring these guidelines for updates and will update them accordingly. Any updates will be communicated with families through email.

General Guidelines

- **For any child sent home due to illness, he/she can return to camp after 72 hours, with the last 24 hours being symptom- and medication-free.**
- The 72-hour minimum does not begin until the initial fever has broken and the person's *normal* temperature has returned. **The 72 hours will start over if:**
 - The person's fever returns.
 - The person takes fever-reducing medication **within the last 24 hours of the 72-hour period**, at which point the 72 hours will not begin until the medication has worked its way out of the individual's system.
 - The person starts experiencing other COVID-related symptoms, regardless of if the fever is still present or not.
 - The person has not contacted a health care professional upon the program director's request, based on the severity and/or duration of the initial fever.
- Only JCC staff and children will be permitted in the Kraft Youth Wing.
- Counselors will clean high-touch areas throughout the day, while custodial services will thoroughly clean the Kraft Youth Wing every night.

COVID-19 Policies & Procedures

Face Coverings

- Children will wear masks in public indoor areas, i.e. when traveling to/from different areas of the JCC (the Kraft Youth Wing is considered private since only CampJCC staff and children are allowed in the wing, so children may remove their masks while in the wing). Staff will wear masks in all indoor areas.

Grouping Guidelines

- Each group will have a home base area outside at the Sablosky Camp Pavilion.
- If groups are in a large room together, masks will be worn by all children and staff. Groups will be spaced apart according to CDC guidelines.
- Camp groupings will be assessed weekly and may be adjusted to meet the needs of the camp.

Testing

- **If any family member is tested, regardless of the reason, CampJCC staff **MUST** be contacted prior to the test date and no one in the household will be permitted to return to the JCC campus until a negative test result is received.**
- **CampJCC staff will notify families of any open tests** of any individuals (staff or families) associated with the program. Families will be notified when test results are received.

COVID-19 Policies & Procedures

Positive/Possible Positive Case Guidelines

- All directives given by Marion County Health Department (MCHD) will be followed.
- If a **child has come in close contact with a person with COVID-19**, CampJCC will contact MCHD for guidance and return date.
- If a **child has symptoms that begin during camp**, staff will contact his/her parents for early pick-up.
- **If there is a confirmed COVID-19 case**, the CampJCC team will contact MCHD. Programming will close as determined by MCHD. Families will be communicated with immediately with any further updates.
- **If a positive case of COVID-19 occurs for a child or caregiver, staff and campers in the group will quarantine or isolate** based on vaccination status and guidance from MCHD.

- **My child tested positive for COVID-19, now what?**

- **Isolate.** Notify camp regardless of whether the child has symptoms or is asymptomatic.

Positive and Asymptomatic

Days 1–5: Child should remain home for 5 calendar days following date of positive test

Days 6–10: Child may return to camp on day 6, if still asymptomatic. Mask may only be removed during days 6–10 for eating/drinking. Child should not participate in any other activities that require mask removal (i.e. strenuous activity, athletics, etc.) during this time. If symptoms develop, please stay home until symptoms are improving and fever-free without fever-reducing medications for at least 24 hours.

COVID-19 Policies & Procedures

Positive/Possible Positive Case Guidelines, cont.

- **Positive and Symptomatic**

Days 1–5: Child should remain home for 5 calendar days following onset of symptoms

Days 6–10: Child may return to camp on day 6, if asymptomatic or symptoms are improving and fever-free for at least 24 hours without fever-reducing meds. Mask may only be removed during days 6–10 for eating/drinking. Child should not participate in any other activities that require mask removal (i.e. strenuous activity, athletics, etc.) during this time. If still fully symptomatic on day 6, please stay home until symptoms are improving and fever-free for at least 24 hours without fever-reducing medicine.

- **My child or someone in my household is getting tested for COVID-19. What do I do?**

- **Quarantine.** Notify camp when awaiting test result and self-report when received. No one from the household is able to be on JCC campus until a negative result is received.

- **My child is experiencing COVID-19 symptoms**

- **Quarantine.** Remain off-campus until symptom-free and medication-free for 72 hours or until a negative test result is obtained.

- **My child has been deemed a close contact**

All parents will be notified if their child is considered a close contact. If a child is asymptomatic, regardless of vaccination status, they may continue to attend camp. If symptoms develop, please follow the quarantine rules above.
